

# LEGEND OF BONEFISH

Bone Fish used to be a Land Shark but, a long time ago, something happened. While protectively swimming through the vegetable garden, a lettuce stealing bunny darted from the patch right into a hollow log to hide. Without hesitation, the loyal and courageous Bone Fish swam right into that hollow log after that bunny. The Bone Fish did indeed scare that bunny off! The log however, was smaller around than he was so he left his fishy coat behind and emerged with only his skeleton.
